

ONE FAUCET. ONE **DIAMOND™** VALVE. FIVE MILLION USES.

DIAMOND™ Seal Technology. Want to know the secret to a long life? For faucets, it's DIAMOND Seal Technology that combines a durable DIAMOND Valve with InnoFlex™ PEX waterways. The DIAMOND Valve features a disc embedded with real diamonds to last up to ten times longer than the industry standard*. And the threat of leaks is all but eliminated, thanks to the one-piece InnoFlex PEX supply lines. Once inside the faucet, water is not in contact with metal contaminants. No leaks. No worries. Another way that Delta is more than just a faucet.
